Academic Advisement	1527497000	Usage	An error is returned when processing Academic Advising transcripts when no program requirement group exists.	When trying to process an Academic Advising transcript for students in a certificate program the following error results: AYRQ: SQL RQ GROUP = NOT FOUND (14600,340). If the page is refreshed, the results appear. In the setup, there is one Career requirement group and one career/program/plan requirement group; no requirement groups are defined to the career/program level. Adding a dummy requirement group at the career/program level eliminates the error message.
Contributor Relations	1473096000	General	A change to a designation fund case purpose is not reflected when posting a gift.	Added a new effective dated row to the designation fund to change the case purpose (av_case_prps in av_account_tbl) and then posted a gift. That change was not reflected when we queried from av_rcg_des.
Financial Aid	1497338000	COD DL	HERA 2006 PLUS loans for graduate students - COD DL changes	Changes are required to the COD DL process in reaction to recent legislative changes. In some cases graduate students are now eligible to borrow PLUS loans.
Financial Aid	65525000	Commonline	Using the CommonLine Loan Origination Transmit panel prevents loan reinstatements.	Originated a Stafford loan for \$2,000. Manually accepted the loan using the CL Loan Orig Trans panel. Cancelled the loan award. Ran loan adjustments and then manually accepted the change (again via the CL Loan Orig Trans panel). At this point the LnAprvdAmt (PS_LOAN_ORIG_DTL.LN_AMT_APPROVED) on the Loan Origination 3 panel was updated to \$0.00. Increased the loan award back to \$2,000 and ran loan adjustments. A change record did not get created, instead a new loan with a seq 2 was created. However, when an acknowledgement file or a change acknowledgement file is received from the loan servicer, the PS_LOAN_ORIG_DTL.LN_AMT_APPROVED field remains at the higher amount. So in the scenario above, a change, reinstatement record would have been created instead of a new loan sequence.
Financial Aid	1497335000	Commonline	HERA 2006 PLUS loans for graduate students - Commonline CL4 changes	Changes are required to the Commonline CL4 process in reaction to recent legislative changes. In some cases graduate students are now eligible to borrow PLUS loans.

Recruiting and Admissions	1504919000	Test Scores/Loads	Changes to GMAT File Layout 2006	GMAT's new service provider is reporting SSN with only the last 4 digits and the preceding digits with asterisks.
Student Records	1538306000	Grading	Grade attribute INCLUDE_IN_GPA is set differently in the record STDNT_ENRL - Grade Post cobol issue	Under certain circumstances, the grade attribute INCLUDE_IN_GPA is set differently in the record STDNT_ENRL, depending on whether the grade is registered by the grade post process or by enrolment request process. Enrollment request process fixed in bundle; grade post Cobol also needs to be fixed.
Student Financials	1487359000	Reports	Students with the same name are merged into one line on the Trial Balance report.	Students with the same first and last name are being shown on the report as one line instead of separate lines for each student. The total for the combined students is correct, but results are very confusing and incorrect.

Student Financials	1317303000	Tax Reporting - 1098T	Request to add the ability to issue 1098-T to students who are non resident aliens.	There are some cases where a non resident alien may request a 1098 T. There needs to be a mechanism to provide the forms to these students even if they do not have a social security number.
Student Financials	1391460000	Tax Reporting - 1098T	1098T form is created when box 2 amounts equal zero due to waivers and Financial Aid is disbursed.	The 1098T form should not be created when the full amount of eligible charges are waived even though there are Financial Aid awards for the tax year.
Student Financials	1440768000	Tax Reporting - 1098T	1098T Box 3 includes duplicates amounts on waiver corrections for prior year.	A waiver that was posted in a prior year and then reversed in the current year and reposted in the current year adds the waiver backout to box 2 and the new waiver to box 3. A waiver that was posted PRIOR to the prior year (2 years ago) and then reversed in the current year and reposted in the current year shows the backout of the waiver in box 2 but the new waiver is added twice to box 3. SF 1098 detail page shows the item number and sequence number listed 2 times and included in the total 2 times.
Student Financials	1519134000	Tax Reporting - 1098T	IRS Form 1098T updates for 2006	Various updates are required for IRS Form 1098-T for the 2006 reporting year.
Student Financials	1519260000	Tax Reporting - 1098T	1098-T forms are generated for students who are non-citizens.	Users would like flexibility in determining which citizenship values are used in processing 1098T .
